Don’t Boil the Ocean—Distill It!

Using meaningful data to understand and improve your program

Courtney Sander
Director of Operations & Implementation Lead

Katie Smith
Executive Vice President, Chief Ethics and Compliance Officer

Today’s Roadmap

1. You’ve got a sea of data, but what do you do with it?
2. Learn how to do your own self-assessment and avoid analysis paralysis.
3. Set achievable goals and craft your own practical action plan.
You’ve got a sea of data, but what do you do with it?

Where do you look for this data?
What do all of these types of data have in common?

How is this information helpful to you?
Learn how to do your own self-assessment and avoid analysis paralysis.

What problem are you trying to solve?
Create your own self-assessment

Consider the outcome before you start
Use tools and existing resources

Collect all the data
Get the right buy-in and participation

Focus on what matters the most
Set achievable goals and craft your own practical action plan.

How you make this happen
